

Pharmaceutical Consulting Services & Beyond

Your trusted partner for pharmaceutical projects

Turnkey plant engineering • Project management • Global regulatory compliance

Since 2003 | ISO 9001:2015 Certified | Indore • Ahmedabad

Turnkey consultancy for regulated manufacturing

JD Pharma Consultants delivers turnkey consultancy services to the Pharma, Biopharma, Nutraceutical, Food & Beverages, API and Chemical industries.

We design facilities in compliance with USFDA, MHRA, WHO-GMP, EU-GMP, TGA, ANVISA and Schedule M — and stay with you from the planning stage until the plant is validated by the regulatory authority.

OUR VISION

To be among the top 3 pharmaceutical consultancies in the world

— by creating value and providing innovative solutions that reduce cost and turnaround time, without compromising on environmental requirements, while enriching the local community.

*Creating value with smarter solutions —
experience matters.*

WHY JD PHARMA

Why clients work with us

Proven track record

Two decades of pharma projects delivered since 2003

Regulatory depth

Facilities designed to WHO, GMP, USFDA, MHRA, TGA, ANVISA & Schedule M

Experienced engineers

Electrical, mechanical & instrumentation engineers, pharmacists and biopharmacists

Always up to date

In constant sync with process technology and regulatory changes

Tailor-made solutions

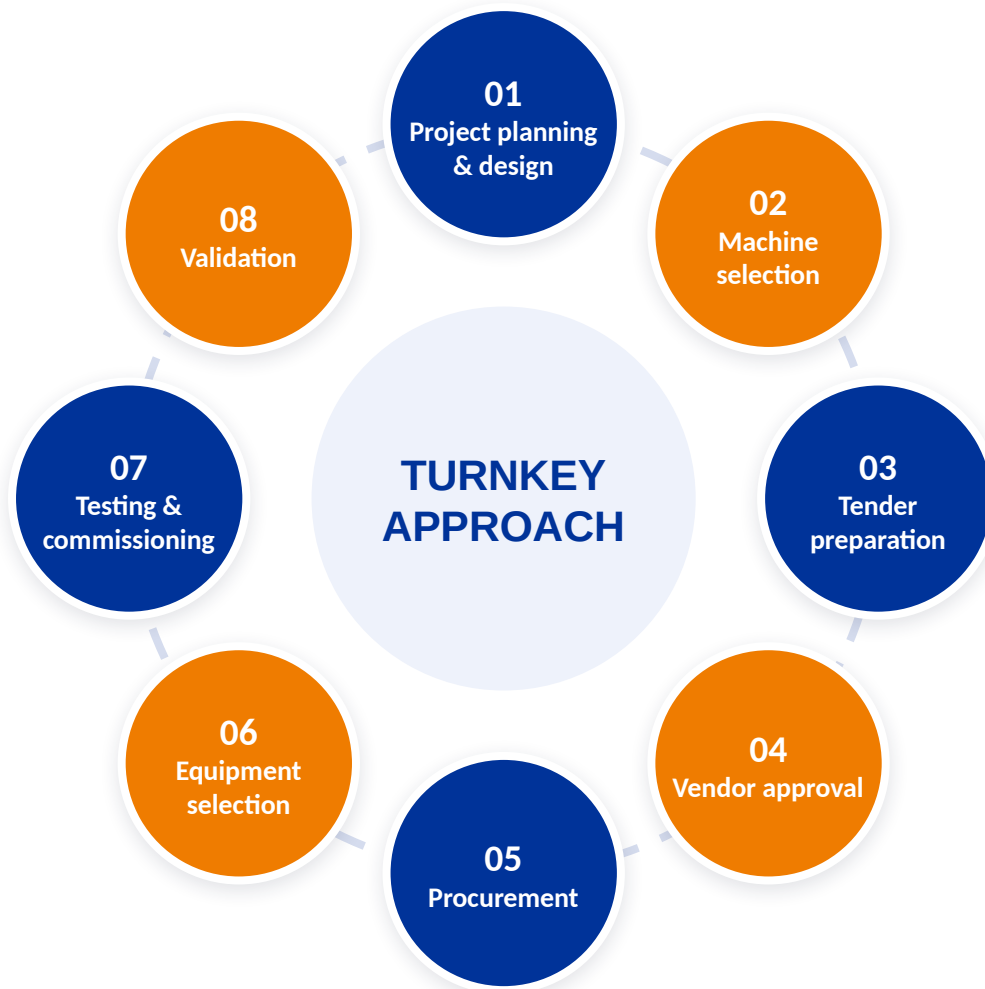

No one size fits all — every design suits your project environment

Turnkey responsibility

End-to-end ownership from concept to final plant validation

One partner from first drawing to validation

The project chain is only as strong as its weakest link.

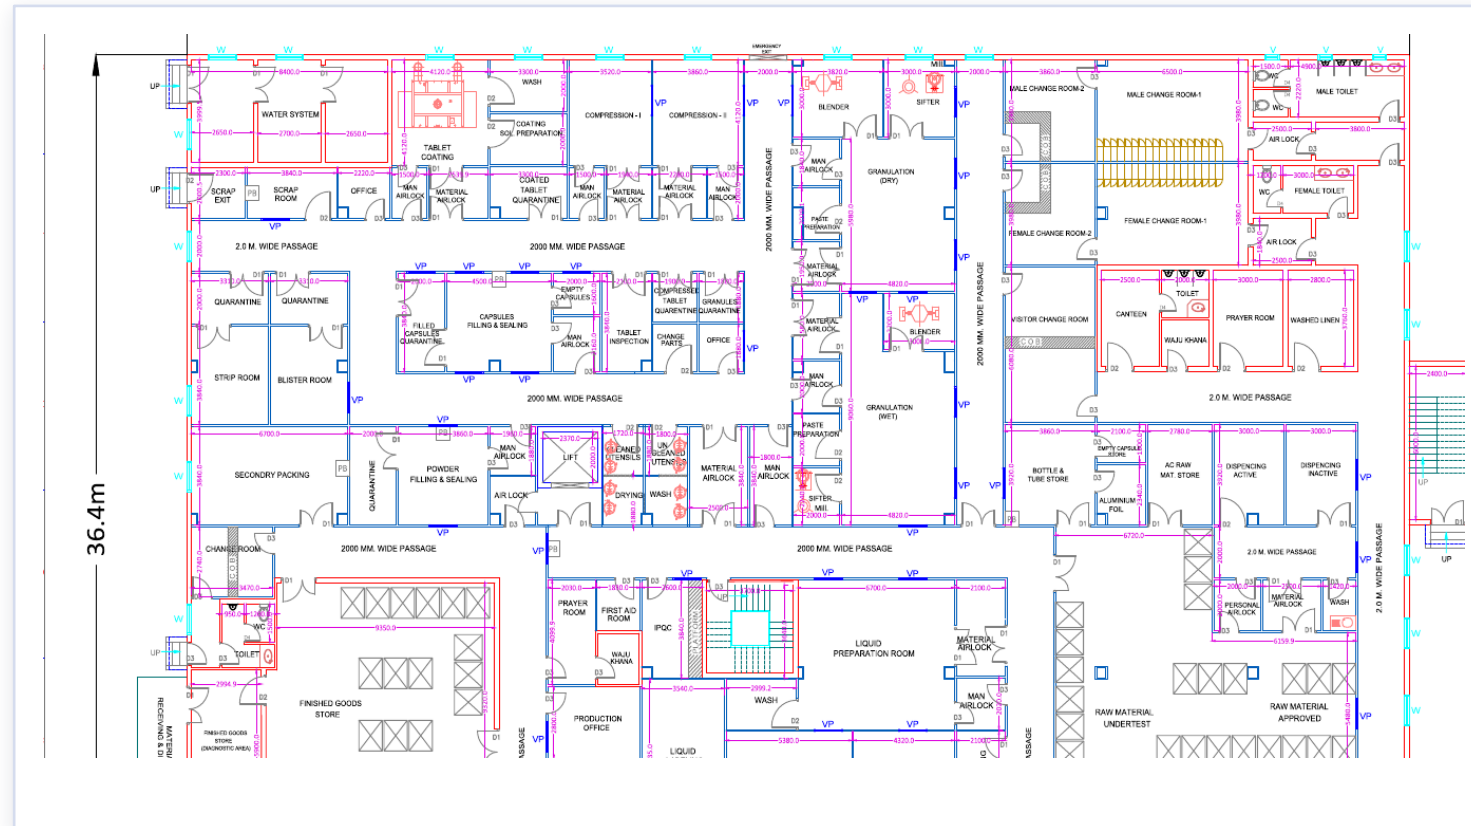

Our capability ensures every link is covered. We work with you from the planning stage until the plant is validated by the required regulatory authority.

Plan Layouts, capacity, feasibility and design basis

Build Tenders, vendor approval, procurement and installation

Qualify Testing, commissioning, validation and approval

Engineering that starts on the drawing board

GMP-compliant layouts

Plant, machine placement and site master plans built for inspection

Multi-discipline coordination

Civil, HVAC, electrical and utility drawings aligned in one design

Fresh, innovative approach

Long-term or interim compliance solutions — customised for each project

Sample GMP plant layout — zoning, man & material flow and room classification

Expertise across every key dosage form

30+

pharmaceutical facilities
consulted and set up —
at both micro and macro
level

Large Volume Parenterals
LVP / IV fluids

Small Volume Parenterals
Vials & ampoules

Solid Dosages
Tablets | Capsules

Liquid Orals
Syrups | Suspensions

Ointments
Creams & topicals

Dry Powder
Dry powder injectables

API
Active pharma ingredients

Medical Devices
Device manufacturing

Oncology Products
High-potency facilities

Seven service lines, one accountable partner

Pharmaceutical Engineering

Plant layout, civil, HVAC, electrical, utility and cleanroom design

Project Management Consulting

Schedules, tenders, vendors and site coordination to handover

Plant Documentation

SOPs, site master file, qualification and validation documents

Plant Operation Management

Operational support to run plants efficiently and inspection-ready

Turnkey Project Services

End-to-end delivery from concept to a validated plant

Third-Party Audit Services

Independent GMP audits and gap assessments

Global Regulatory Compliance

USFDA, WHO-GMP and EU-GMP consulting and facility design

12

engineering disciplines delivered in-house — detailed on the next slides

Plant & building design

Plant Layout Design

- Layouts per USFDA, MHRA, TGA, WHO-GMP, cGMP & Schedule M
- Man & material flow and machine placement drawings
- Site plans with expansion, utility and admin blocks

Civil Design

- Architectural & structural drawings of the plant building
- BOQ, estimates and floor, wall & ceiling specifications
- Cleanroom partition specs, tenders and vendor selection

Electrical Engineering

- Complete power distribution and HT yard design
- SLDs, earthing, cable & cable-tray layouts
- Specs for panels, transformers, DG sets, MCC/PCC, VFDs, UPS

Utility Design

- Purified water, WFI, compressed air, vacuum, gas, CIP & SIP
- P&IDs for water generation & distribution
- BOQ, procurement and approval of vendor drawings

Clean environments & process

HVAC

- Air-flow diagrams, AHU piping & ducting layouts
- AHU grouping, filtration, room classification, pressure zoning
- DQ, BOQ, GA drawings, RCP and HVAC tendering

Cleanroom Design

- Cleanrooms from ISO Class 1 to Class 9 (FS209E 1–100,000)
- Modular walls, walkable ceilings, doors, windows & lighting
- Specifications, BOQ, tenders and vendor selection

Capacity Design & Machinery

- Productivity-based machinery selection
- URS for machinery, lab instruments & utilities
- Tender documents, quotations and vendor selection

Plant Safety Engineering

- Product, personnel, spill, dust & static-discharge safety plans
- Fire / smoke detection and protection design philosophy
- Fire water tank, hydrant and sprinkler systems

Compliance, environment & feasibility

Environmental Engineering

- Effluent identification and complete ETP system design
- Scrubbers / incinerators for exhaust air handling
- Solid & liquid waste disposal, air and noise pollution control

cGMP Compliance

- Alteration & addition plans to make existing plants cGMP-compliant
- SOPs, site master file and validation documentation
- Readiness for regulatory inspections

Feasibility Study Reports

- Executive summary and product description
- Plant technical details
- Market analysis and financial analysis

Turnkey Services

- Complete end-to-end services for pharma projects
- From conceptualisation to project handover
- Almost all key areas under a single scope

Trusted from California to Riyadh

01

Hakeem Pharma

 **Riyadh, Saudi Arabia**

Engineering design of a pharmaceutical plant

02

Doctors Company

 **Jeddah, Saudi Arabia**

Oral solid dosage (OSD) manufacturing plant

03

NutraWest, Inc.

 **California, USA**

Nutraceutical manufacturing project

04

Becton Dickinson

 **Bawal, Haryana, India**

Cleanroom 7 — HVAC, electrical and validation

05

Simfa Labs Pvt. Ltd.

 **Pithampur, India**

Pharmaceutical manufacturing unit

06

IIIM (CSIR)

 **Pithampur, India**

Manufacturing unit

Projects delivered in 13+ countries

AMERICAS & EUROPE

USA • Slovakia

MIDDLE EAST

Saudi Arabia • UAE • Qatar • Iraq

ASIA

India • Afghanistan
Pakistan • Sri Lanka

AFRICA

Nigeria • Ghana • Uganda

40+ clients in India and worldwide

International 18 clients

Arab Chemist Co. — Saudi Arabia	GalaxyPharma — Pakistan
Hakeem Pharma — Saudi Arabia	Sands Active (MelwaPharma) — Sri Lanka
Omar Ban Taha Alsaggaf Factory — Saudi Arabia	Invapharm Inc. — USA
Pharmacare Leading Mfg. Co. — Saudi Arabia	NutraWest, Inc. — USA
Doctors Company — Saudi Arabia	Best Green Lab — Slovakia
Global Pharma LLC — Dubai	Dony Triumph & Co. — Nigeria
White Star Pharma Solutions — Iraq	Hyenang Pharmaceuticals — Nigeria
Zavita Pharma — Iraq	Kendick Pharmacy — Ghana
Life Pearl Pharmaceuticals — Afghanistan	Kimsy Meds — Uganda

India 22 clients

BectonDickinson India	Govt. Opium & Alkaloids Works, Neemuch
CSIR – IIIM, Jammu	Arihant Chemicals, Ratlam
Kronox Lab Sciences	India Phosphate, Ujjain
Advanced Enzymes Technologies	Hindustan Phosphate, Pithampur
Nitika Pharmaceutical Specialties	DJ Laboratories, Pithampur
Accra Pac India	Namokar Speciality Chemicals, Pithampur
Bliss Lifesciences	Simfa Labs, Pithampur
PRICON	Sanctus Drugs & Pharma, Pithampur
Bharat Explosive	Zenith Drugs, Indore
Apollo International, New Delhi	Pricon Surgicals, Jodhpur
Glumex Pharmaceuticals, Mumbai	Sagar Rubber Products, Mehsana
